11th Symposium on “New therapeutic aspects for Osteoporotic Vertebral Fractures and Kyphosis”

Dear Colleagues,

We have pleasure in announcing the 11th Symposium on “New therapeutic aspects for Osteoporotic Vertebral Fractures and Kyphosis”.

Our previous symposia have shown that there is a clear need for discussion on the various therapies and for exchanging experience in the field of stable vertebral fractures.

We are happy to welcome speakers from all over Europe and Iran. The great variety of topics will open the door to interesting discussions.

The symposium will take place at the Radisson Blu Hotel Latvija, in Latvia’s beautiful capital Riga!

We are looking forward to welcoming you in Riga!
